While you are about it—Grow the Best

"THE SWEETEST SWEET CORN ON EARTH"
E. B. W., Goshen, Ind.

DeLue's GOLDEN GIANT

TRADE MARK REGISTERED

NEW EARLY HYBRID SWEET CORN

"The New Master of the Fields"

This new corn has been before the public for five years and thoroughly tested throughout the United States and Canada. In comparison with all other varieties of sweet corn, and particularly with the once popular Golden Bantam, it has been pronounced superior to all others.

The most particular attention has been paid to the quality, for earliness and great size would count for nothing without this crowning virtue. It is because of the extreme tenderness, combined with the exquisite rich sugary flavor, that the Golden Giant has become the standard of perfection for sugar corn the world over.

Best of All to Eat

One of the oldest and best known seed corn growers for the trade in the United States, after 47 years' experience in growing over 100 varieties of corn, calls **DeLue's Golden Giant Sweet Corn** the **most wonderful** corn he has ever grown. He says:

"We find it some three to five days earlier than Golden Bantam sweet corn, with ears much larger, and yielding twice as much per acre as the Golden Bantam. We also find the quality superior to that of the Golden Bantam, making it the most wonderful, early, productive, large-eared yellow sweet corn grown in our forty-seven years' experience of growing sweet corn."

Most Profitable to Grow

Market Gardeners report that in the Boston district in 1921, the rate of yield was **225 bushels per acre**; the **wholesale** market price, for corn planted the middle of May, as high as **\$2.25 per bushel**; and the time of maturity **63 days**. This is about double the yield of Stowell's Evergreen and nearly twice the price per bushel.

"You're Sure It's Pure When It Comes From the Originator"

"Golden Giant is the most satisfactory sweet corn we ever raised. Two stalks had eight ears each."

—F. I. S., Savannah, Ga.

GENUINENESS—QUALITY

"I am glad to deal with the originator and be assured as to genuineness and quality." —A. H., Williamsburg, Mass.

"Golden Giant sweet corn is a vast improvement on the popular Golden Bantam." —*Rural New Yorker*.
